Key features of the 2005 Grand Cherokee navigation system included:

- **CD-ROM Based Maps:** The maps were stored on a CD-ROM which needed to be inserted into the system's slot.
- **Voice Prompts:** The system provided audible instructions guiding the driver to their destination.
- **Point-of-Interest (POI) Search:** Drivers could search for specific locations, such as restaurants, gas stations, or hotels. Understanding how to effectively utilize this **POI search function** is critical for optimal usage.

- **Lack of Advanced Features:** Features like lane guidance, 3D maps, and smartphone integration were not available.

Troubleshooting Common Issues

Even with a well-maintained **Jeep Grand Cherokee navigation system**, you might encounter problems. Here are some common issues and possible solutions:
