- **Ethos:** This refers to the credibility or character of the speaker. A speaker with strong ethos builds trust and inspires confidence in their message. Think of a doctor recommending a medication – their professional expertise lends credibility to their advice. Developing ethos involves demonstrating knowledge, good moral character, and goodwill toward the audience.
- **Pathos:** This appeal targets the emotions of the audience. By evoking feelings like joy, sadness, anger, or fear, a speaker can connect with their audience on a deeper level and make their message more impactful. Powerful speeches often utilize pathos to create a sense of urgency or shared purpose. For example, an advertisement showcasing a starving child to promote charitable giving relies heavily on pathos.
- **Logos:** This is the appeal to logic and reason. It involves using evidence, facts, and logical reasoning to support a claim. A strong argument based on logos relies on clear reasoning and avoids fallacies. A scientific presentation relying on data and research is a prime example of logos-driven rhetoric.
